About RAHN

RAHN-GROUP SPECIALISING IN MARKET-ORIENTATED COSMETIC INGREDIENTS

RAHN AG is a financially independent Swiss family company with two business areas, Cosmetics and EnergyCuring. RAHN AG has been a key player in the international marketplace since 80 years and has more recently grown into an internationally acclaimed expert in the development and sale of specialty chemicals. A key for our success is the combination of being a long-term distributor of various principles as well as providing RAHN products developed in our own R&D centers. In 1999 RAHN launched its own cleverly devised RAHN-Cosmetic Actives for use in a variety of applications.

A HOLISTIC PLATFORM SATISFYING INDIVIDUAL CUSTOMER REQUIREMENTS

We at RAHN speak the language of cosmetic science and strive to generate new inspiration for our customers. This message is reflected in the representation of various unique ingredient from our suppliers, combined with our own RAHN-Cosmetic Actives. We recognize and harness the potential of nature,

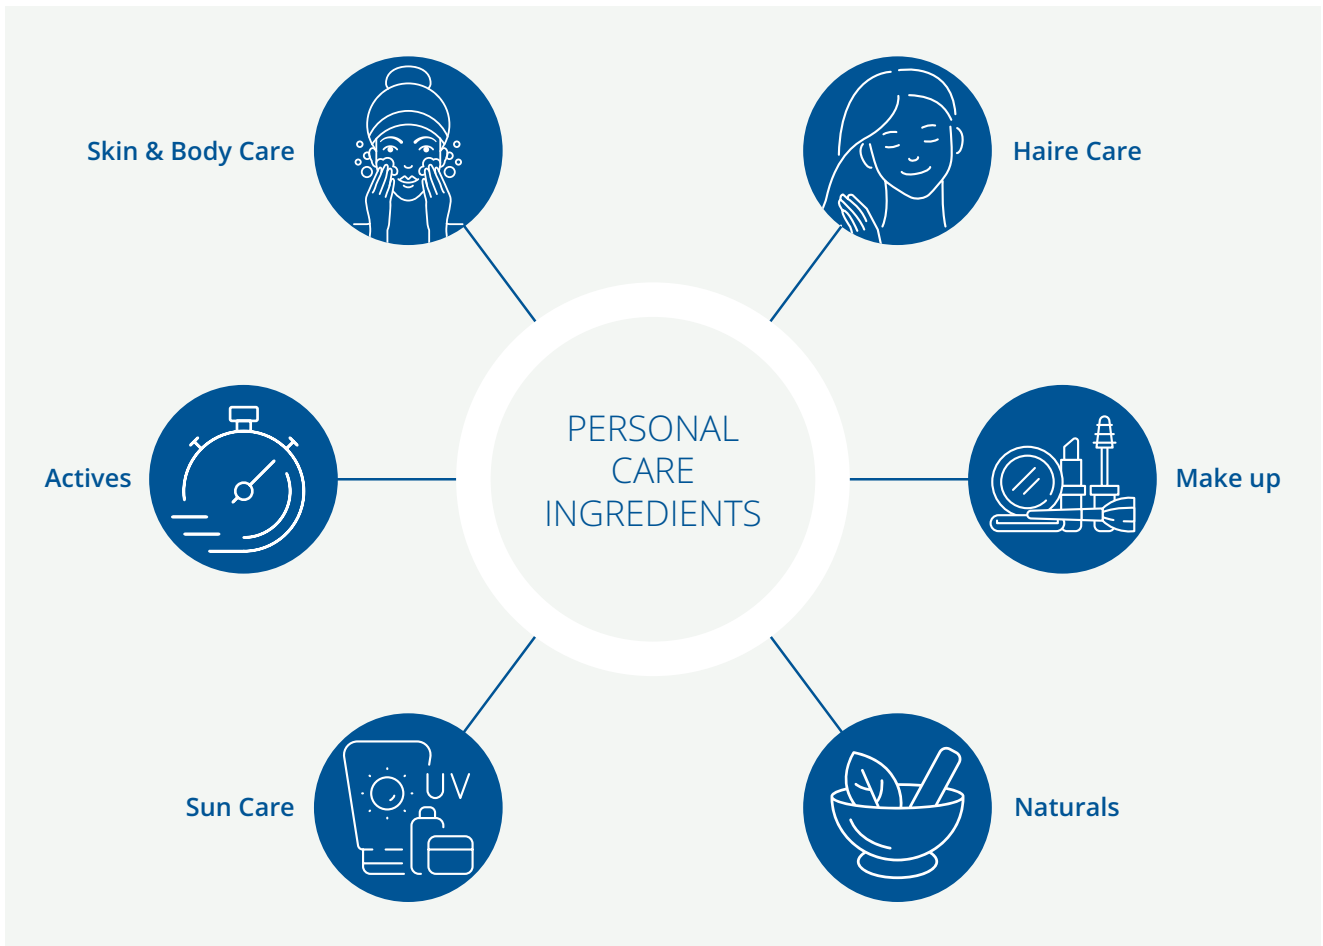

whilst combining it with modern technology to generate market-orientated, added-value concepts. Constantly at the cutting edge of skin biology, we transform our scientifically proven systems into cosmetic statements. With its extensive platform, RAHN-Cosmetic Actives are capable of meeting a wide range of customer requirements be it in terms of marketing, science, product development or product safety.

STRAIGHTFORWARD CUSTOMER SERVICE – SECOND NATURE TO US!

Our customers are at the very heart of our business and we recognize the importance of responding swiftly to customer requests to offer workable solutions. The documentation for our ingredients is comprehensive and practical. Our customers are delighted to use the intelligent trade names of our RAHN-Cosmetic Actives on their cosmetic packaging to further enhance pack claims. We are also equipped to deal with formulation problems in our technical applications laboratories as well as providing a wide range of tailor-made, state-of-the-art guide formulations.
